

Love and Acceptance NGO's

Disability Education Awareness Ride D-E-A-R - Ride

KANYAKUMARI - KARDHUNG LA June 2017

“Challenging Road Trip on Wheels by the people with challenges”.

Disability is not the end of the world. It is the beginning for us to see the world. We believe that the desire to explore new worlds is more important than the rigors of travel; the effort is only an element of the expedition, not a hindrance. This expedition is **not about attractions** to see - it is about **educating** and making the **world** know about our challenges.

A step towards a progressive evolution on social **inclusive** society.

Disability to reach a goal is in one's mind and not in physical aspects of living. With much **perseverance and consistent motivation**, all you need is heart and soul to set a goal and get it done.

Physical disability is **never a constraint** for growth but a mere challenge which we can overcome with determination and self-confidence. In order to give hands for those with noble heart and able mind to achieve heights in spite of any physical disability, we have come up with the most influencing and attracting adventure awareness **!dea**.

As a initiation to bring visibility towards Disability,

Love and Acceptance NGO's founder and Managing Trustee is a Person with spinal disability (PWSD), is making a road expedition with his retrofit Royal Enfield 500cc with sidecar is riding from Kanyakumari to kardungh La spanning across India a whopping 4000Km stretch, A NATIONAL RIDE !! You can ride for thrill and adventure of yours and you can also ride for creating awareness to enhance the human kind.

Titled: DEAR WARHORSE (Disability Education Awareness Ride WARHORSE)

A brief Introduction on Love and Acceptance NGO, Reg:35/2014 with 12A and 80G approval functioning from Tirupur ,Tamilnadu India.

At Love and Acceptance we are currently supporting a reasonable 3 digit number of people with spinal disabilities across India with urinary catheters and urine bags.

A brief on spinal cord disability:

Like a motherboard to a computer, so is spinal cord to our entire nervous system which connects and distributes the commands with each action of our body. A fracture on any other part of human body will recover with lapse of time but when a spinal cord is injured (Medical/Road/virus - accidents) the damage of nervous and motor (loss of sensation, bowl and bladder control functions, not able to sit, not able to move, breathing difficulty, not able to sweat and feel cold/Hot on skin) will remain for life and the normal activities of daily living are affected.

Having experienced this pain and undergone the emotion on the first hand, of ensuring the availability of Wheelchair, Commode chair and Urinary catheters and Lubricant jellies for every spinal disability person across India to help them with access mobility, employment, and opportunity to socialize.

An initiative by Love and Acceptance founder Lalithkumar Natarajan & Team

But unfortunately spinal disability in any form is not included in the National's list of disabilities so as to advocate on including the "spinal cord disabilities to, cover rehabilitation with insurance coverage.

Few list of spinal disabilities include,

1. Transverse Myelitis 2. Multiple Sclerosis 3, Spinal cord injury 4. TB in spine 5. Tumor, 5. Road accidents and more

By mentioning our motto,

1. Creating awareness on the RPWD act 2016

2. CDEEARR

Centre for Disability Education Employment Advocacy Research & Rehabilitation

A NATIONAL INITIATIVE to setup rehabilitation and support centres across India AND CREATING AWARENESS ON SPINAL CORD DISABILITIES

3. PROJECT #HELPINGHANDS

The project to distribute WHEELCHAIR + COMMODORE CHAIR + URINARY CATHETERS FOR PEOPLE WITH SPINAL & MULTIPLE DISABILITY)

LOVE AND ACCEPTANCE founder is making his national K2K expedition with his retrofit bike "WARHORSE" ride titled

"DEAR-WARHORSE" (Disability Education Awareness Ride -Warhorse)

The ride is joined along with the peer fraternity of the PWD community namely from SWARGA foundation working for the Multiple sclerosis SIPA spinal injured persons association Anugraha home for the disabled to show the solidarity towards our awareness ride..

Vehicle	Type	Riders	
Bullet	Retrofit ROYAL ENFIELD 500CC DESERT STORM	LALITHKUMAR NATARAJAN
